MESSAGE FROM THE MAYOR

JULY

July is here and Mother Nature is letting us know it every day the temperatures are in the 100's. I hope that everyone had a wonderful and safe 4th of July.

THE TOWN OF WYOMING

We just closed the end of the fiscal year 2012, and it is looking good for the Town and all of its residents. Monday night we decided to purchase 2 new fully equipped police cars, which we will be able

POLICE DEPARTMENT

Summer is now in full swing. I hope everyone had a happy 4th of July and remember this is the time to celebrate the United States of America's independence. During this week there will be extra officers on the road to enforce aggressive driving and there will be DUI patrols.

Just to let everyone know, in June we had some domestics and a burglary in town. They are the major things that happened last month.

I want to let everyone know that we put in for the COPS Grant back in April 2012. I just received notification that the Wyoming Police Department was awarded the COPS Grant for one officer in which the federal government will pay for 75% of the officer's salary and benefits for the next 3 years.

This is a three part series on protecting yourself in a collision which will be given over the next three months. There will be times that you cannot avoid a collision. Try to do everything you can do to avoid getting hit. If that does not work, then try to lessen the impact and possible injuries that might result from the accident. The most important thing you can do is to make sure you are wearing your lap and shoulder belt. Besides wearing your safety belt there are a couple of things that you can do to prevent more serious injuries. If your vehicle is ever hit from behind, your body will be thrown backwards. Make sure you press your body against the back of the seat and your head up against your head rest. Apply the brakes to your vehicle so that you will not be pushed into another vehicle in front of you. By doing this it will help reduce the chance of injury.

I would like to leave everyone with this quote from John Didion: "The willingness to accept responsibility for one's own life is the source from which self-respect springs."

to purchase with cash and will not need to finance. This was made possible by us watching over every penny of your tax dollars and making the right choices. The employees and this council have been working together to conserve in every possible way. So I would like thank all of the Council members and employees for helping to make this a reality.
